(d) the steps taken to stop misuse of websites in the country; and

(e) the remedies which are available to stop this practice in other countries?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (DR. SHAKEELAHMAD): (a) to (c) The primary responsibility for registration and investigation of crimes at cyber cafe's lies with the State Governments. According to the National Crime Records Bureau (NCRB), which maintains the national crime data, the State/UT-wise cases of obscene publication/transmission in electronic form reported under Section 67 of Information Technology Act during 2003, 2004 and 2005 are 21, 34 and 88 respectively. However NCRB does not maintain specific information regarding misuse of Internet services by cyber cafe's by putting obscene pictures and details on websites.

(d) The Information Technology Act, 2000 togetherwith the Indian Penal Code, 1860 provides legal framework for countering misuse of websites in the country.

(e) Every country addresses the matter within their legal framework.

Corruption in BSNL

†295. SHRI PYARELAL KHANDELWAL: Will the Minister of COMMUNICATIONS AND INFORMATION TECHNOLOGY be pleased to state:

(a) whether it is a fact that due to negligence and corruption prevalent in public sector telecommunication company particularly the BSNL, the number of its basic phone consumers has declined;

(b) whether it is also a fact that private comanies are directly benefited from such situation;

(c) if not, the comparative details of public sector and private sector companies for the last two years, State-wise; and

(d) whether Government propose to conduct an inquiry by a high powered agency into corruption prevailing in BSNL particularly in Bihar circle?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (DR. SHAKEELAHMAD): (a) No, Sir. Number of basic phone consumers in public sector telecommunication

† Original notice of the question was received in Hindi.

company particularly the BSNL has declined due to popularity of mobile services, surrender of second telephone and tough competition in the market. It is neither due to negligence nor due to corruption.

(b) Does not arise in view of (a) above.

(c) Comparative details of telephone subscribers of BSNL and the private operators for the last two years are given in the Statement (See below).

(d) Does not arise in view of (a) above.

Standard limit of radio-waves for mobiles

296. SHRl KARNENDU BHATTACHARJEE: Will the Minister of COMMUNICATIONS AND INFORMATION TECHNOLOGY be pleased to state:

(a) whether Government have set certain standard permissible limit of radio-waves for the mobiles;

(b) if so, the details thereof; and

(c) if not, the reasons for not setting limits for emission of radio-wave for mobile phones?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (DR. SHAKEEL AHMAD): (a) to (c) The International Commission on Non-Ionising Radiation Protection (ICNIRP) of World Health Organisation (WHO) has recommended a standard limit for safety of health from wireless/electronmagnetic radiations.

A committee was set up by the Ministry of Health and Family Welfare, under the Chairmanship of Director General, Indian Council of Medical Research, for preliminary study on health hazards due to mobile towers.

The Committee had extensive discussions and has opined that, overall, there is not enough evidence to show direct health hazards of RF exposures from mobile base stations.
